New Map!
Beware the Hell Hounds!

ALLIANCE OF CALIBRE GUNS

ALLIANCE OF VALIANT ARMS

www.playfps.com

BEWARE THE HELL HOUNDS...

In the never ceasing battle for dominance of Europe, the NRF's Operation Fox Hunt has proven successful so far in eliminating the small pockets of NRF resistance left behind. However, a small number of them survived the hunt and renewed their will to resist.

Cut-off and behind enemy lines, these hopeless NRF guerillas fight recklessly at will, inflicting as much damage as they can before their inevitable death.

They call themselves the Hell Hounds.

Mon Dieu! Looks like Alliance of Valiant Arms (AVA) heads to France in its latest patch with the release of the Hell Hound map.

Located in the outskirts of Paris, France, the Hell Hound map is the latest demolition map to be released in AVASEA.

As its backstory implies, this map is all about guerilla style fighting in a highly urban setting. This means that there are many long stretches of roads and buildings to stake out, along with extremely narrow hallways to contend with. Most of combat will take place in extreme close quarters; however watch out for the snipers who will take you out if you should wander out into the open streets.

BEWARE THE HELL HOUNDS...

DRAGUNOV SVD

A Semi-automatic sniper rifle widely used in eastern Europe. It has gas press mechanism that is similar to AK series. High reliability, light weight, and high cost-performance make it a favored choice in today's arms market.

The Dragunov SVD houses high damage (for a semi), very high stability, acceptable accuracy and mobility but low range. The Dragunov is a very good choice for people who decide to use a semi-auto sniper rifle instead of a bolt-action, but comes with low range and other drawbacks experienced by semi's like less peripheral vision and lowered mobility (maybe not mobility) when scoped in.

One of the biggest draws to the Dragunov is that it has arguably one of the best moveshots in the game with low recoil and a consistent 1 hit kill rate (within range), on top of its semi-auto nature. This is balanced by having a painfully low amount of ammo (10 in clip, 10 in reserve) and low range.

It should be noted that when zoomed once with the regular scope, recoil is substantially lower compared to when fully zoomed in.

OTS-14 GROZA

The word means "Groza" means "Thunderstorm" in Russian and it's not hard to see why it is named as such.

Like the AKS-74U, the OTS-14 Groza is categorised a basic assault rifle with simplistic bullpup design. Quick and easy to operate, it also features the same standard RX4-Storm suppressor.

While it is possible to penetrate bulletproof vests with using the OTS-14 Groza, which features good firepower, one must get used to the slow reloading time. Another thing to take note of is the extreme recoil while shooting bullets from left to right.

XW ONLINE 玄武傳奇

WWW.XWSEA.COM English Available

《玄武傳奇》即將推出新改版，玩家等級上限提升至65級，並將同步開放65級的超炫裝備。並新增絕世絕學的掉落。

另加入全新的裝備煉化系統，讓玩家煉製高等強武，還有更強的寵物助拳；同時開放全新地圖、副本和練功塔等待豪俠們來挑戰。

開放65級新地圖，新練功塔，新副本 – 赤焰焚陣

此次改版開放的全新地圖，包括61—65 級的古境之森，借着幫助凌水閣長老，擊敗鏡湖水壇的幻影、消滅慕容清，緊接着新的挑戰冒險正準備展開，在苗疆邊境的先知巫女蘭芳的引導下，將會進入古境森林。居住在當地的黑矮妖崇尚元魔，而元魔利用黑矮妖的力量，正一步步破解商冠國的秘密，揭開玄仙與元魔千百年來的隱藏的真相。

天火會的鎮門之寶—火靈珠因為受到四象元素波動的影響，而造成失控反被火象台主呼延灼利用，一方面先前十元盟在元魔底下布下的暗樁—吳心涎，如今成為元魔的爪牙，助紂為虐，元魔大軍入侵的危機即將來臨。這將是讓各位豪俠挑戰的65級高級新副本—赤焰天台

如果想要提升殺戮的技巧，65級練功塔赤焰焚陣則是玩家最佳的選擇。練功塔赤焰焚陣各有三層，並以等級區隔開，越是深入較高樓層，所面臨的挑戰也越大，里面的怪物有各自的屬性，想要挑戰請準備好相對應的屬性裝與抗性藥水。

新增關係值 – 商冠族、元魔克星

商冠族：

几千年前玄仙界為了元魔界的野心，划開與人間界的連結而在雷天岭落下巨大的雷雷，傳聞中人類商冠為了保護居住在此處的人民，抵擋落雷而犧牲自己，居住在雷天岭的人民就是感念商冠的義行，而在商冠抵擋巨雷的地方建立了商冠國。

元魔克星：

號稱與十二玄盟私交甚篤，實際上能力卻遠遠不及十二玄盟的先生們，只能在各地化作探子，四處探查元魔的動向，並且請求江湖人士幫忙，似乎也有做一些情報交易，卻不一定可靠？

裝備煉化系統打造豪俠們的金色神人裝備

本次改版擁有全新的裝備煉化系統，讓玩家在打怪練等之余，也可體驗自己做裝備的樂趣：玩家可以將不想要的裝備放入”煉武火爐中，並加入至多5 項的指定材料，煉武火爐將依據當時的裝備積分，煉出高級武器裝備。裝備積分會受幾個因素所影響，因素包括：精煉程度，裝備等級，裝備品質，附靈，寶石，職業心法加成，隨機效果，固定效果。

除此以外，豪俠們要將紫裝升級成金裝，裝備煉化系統可是占了很大的因素。

The latest content release in XW Online, the 3D martial arts MMORPG, will take one's breath away. On top of the level cap being raised to Level 65, new stunning equipment, armour and skills are set to excite players on their noble journey.

Along with the content release, players can look forward to a new crafting system that allows them to craft higher level items and stronger pets as their fighting companions, while they transverse through new maps, attempt new quests and explore new dungeons.

OPENING OF LEVEL 65 MAPS, DUNGEONS AND SKILLS - FIRE MAZE

This latest content patch includes new maps, such as the Ancient Forest which is only accessible for Level 61 to 65 players. Here, they will assist Clan Ling Shui Elder to defeat the Phantom in the Altar of Water and eliminate Mu Rong Qing.

An impending war is also about to break out along the Miao Jiang Border! Under the leadership of Lady Prophet Lan Fang, they will enter the Ancient Forest to eliminate the Black Dwarfs Demon.

Meanwhile, the Demon is making use of the Black Dwarfs Demon's power to slowly crack the secret of Shang Guan Clan, which could very well unravel the truth between Heavens and Demons after being buried for thousands of years.

Clan Tian Huo's Treasure - Fire Bead, affected by the movement of the elements, has lost its power to the Fire Tower Master, Hu Yan Jun. Wu Xin Xian, a spy planted by the Twelve Union, has become the Demon's right-hand man and is assisting him in creating all the chaos on Earth. Defeating him will be the new challenge for Level 65 players at the Altar of Fire.

If players wish to enhance their skills, the Level 65 training tower Fire Maze would be their best option. This training tower has three levels, segregated by player levels. The higher the level, the more challenging the tower will be. Monsters that reside in this tower have their unique characteristics, and those up for the challenge should prepare the relevant resistance potions in order to survive.

NEW SYSTEMS - SHANGGUAN CLAN, DEMON BANE

SHANG GUAN CLAN:

Thousands of years ago, due to the Demon's ambitious evil plans, the Heavens released a huge and abnormal thunder at Lightning Hill to draw a clear boundary between Heaven and Earth.

Legend has it that a Human called Shang Guan sacrificed himself to protect the people living there by blocking the lightning. To commemorate his heroic act, the people settled down at that very spot he was struck and built the Shang Guan Clan from then on.

DEMON BANE:

He boasts about his deep connections to the Twelve Union, but in reality he is just someone whose abilities do not even match up to them. He could only become a spy, wandering around to locate the whereabouts of the Demon by seeking help from others. He seems to have some information in exchange, but is the information that he claims to have reliable?

THE EQUIPMENT CONVERSION SYSTEM THAT PRODUCES GODLY GOLDEN EQUIPMENT

The latest conversion system brings recycling to a whole new level! This system allows players to convert unwanted items into new, godly, golden equipment.

To convert, players will need to put in their unwanted items, plus a maximum of five required materials, into the Urn. The Urn will craft high level items according to the level and accumulated equipment points. Equipment points are affected by many elements, including the following: crafting proficiency, equipment level, level of experience, quality, number of added enhancements, and the equipment effects.

Additionally, players looking to convert their purple level equipment to the golden level would very much depend on the conversion system.

GetAmped[®]R

This season, a rival style of Spy is ready to hit Fighters with a good ol' dose of bad attitude! Presenting the Destresso Secret Guard!

The DSG may not be so quick on its feet, but it more than makes up for that with a high DEF, and allows you to withstand enemy attacks while fighting back effectively and securely.

This style is also adept with some serious firepower, so handguns, stunguns, blasters, all are good to go! Holding down a button for a prolonged period of time also allows for many moves and function changes. And one more interesting thing to note is that as a special skill, the camera view gets wider while dashing. So during the dash of the spiral style, utilise the wider camera to your advantage! Happy Fighting!

SUDDEN ATTACK SEASON II

ENTER THE LYCAN!

Sudden Attack's (SA) Vampire Mode was released last May, providing players with many thrills and spills (of blood) as players are divided into two camps - that of humans pitted in a desperate battle for survival against the host vampire, whose sole purpose is to turn all humans into its vampiric minions!

If you've been battling evil within SA the past few months, you'll definitely be thrilled to see who's about to enter the arena in the fight against the evil in the latest patch for the Vampire Mode!

Introducing our latest patch - the Vampire Vessel which includes a the Vampire Vessel map. This map is a rather small one and is in the shape of a pirate ship (perhaps the vampires decided to switch careers to pirates, who knows!) offers something interesting for the vampire characters. Located within the map are special areas that will either offer character advantage or penalty to those playing as vampires.

Those playing as humans aren't left out in the cold either with the introduction of a new weapon - the Silver Pile V.H. Basically an upgrade from the normal Pile used in the earlier versions of the Vampire Mode, this melee weapon has a longer range and when used to slay a vampire, makes it impossible for them to respawn.

The human side will also be introduced to new character - the Lycan! When only a few human survivors are left, they will be turned into the superhuman Lycans. Unlike the humans or vampires, there aren't any girl or boy Lycans.

Relive the Glorious Days of the Caribbean

Ahoy Budding Sailors!

This is Captain Potter here. I was invited to write a short article for the PlayPark Newsletter, to help all budding Sailors jump start their careers sailing the seven seas!

I wouldn't say I'm an expert, but I have managed to make tonnes of monies, and have equipped myself with a decent ship and loads of cannons to blast any pirate to Davey Jones' Locker!

Here are some tips to start all you young sailors off! You can pay me back by buying me some ale at the tarven, if we were to meet!

Let's be realistic, money makes the world go round. You need money, and the best way to begin is to choose to be a Trader! Once you've done that, go back to SCHOOL! Do not skip any of the school quests, as they help you level up fast, and provide you with ample amount of money and in-game items to get you going.

Once you're done with the basic school, and before you report to the advance school, there are two skills you'll have to purchase.:

1. Surveying Skill – So you won't get lost at sea!

You can find the skill for purchase at Lisbon (Admiral Dias), Istanbul (Adventure GM), or Amsterdam (Mercator).

2. Fishing Skill - Why waste time? Fish while you sail!

You can find this skill for purchase at London (Duckett), Amsterdam (Bicker), Lisbon (Nzinga Mbemba), Seville (Tome Pires), Barcelona (Luis de Leon), or Naples (Gesualdo the Musician).

And there's no point in catching fishes if they are inedible, so do purchase a recipe book known as the "Fisherman Arts – Preservation Methods". These books are available at the item shop at Amsterdam, Lisbon, London, Marseille, Seville and Venice. Once preserved, each fish will sell at an approximate price of 180 Ducats instead of 60 Ducats! You'll be rich in no time!

The secret is the finish all the school quests and to always start as a trader first! Make the dough! After completion of the Advance School of Trade, you can then choose to attend the Maritime School or the Adventure School.

I look forward to meeting all of you on the high seas! Do say, "Ahoy!" if our paths do cross. Happy Sailing!

*Yours truly,
Captain Potter*
